Environmental Policy Statement

Anchor Systems (International) Ltd is a supplier of specialist geotechnical products and solutions to the Civil, Industrial, Utilities, Rail and Renewable sectors. We recognise that our activities have an impact on the environment therefore in all our activities, working practices and business relationships, we are committed to protecting, conserving and enhancing all aspects of the environment over which we have control or can influence.

We shall ensure compliance with all relevant environmental legislation and regulations and take action to continually improve our environmental performance and prevent pollution across all our activities, products and services.

Anchor Systems (International) Ltd aims at providing our customers with both high quality products and services in a manner that does not impact upon, but enhances, the environment. Our company is committed to:

- Be aware of the nature, scale and environmental impacts of its activities, products and services.
- Promote the best and most efficient use of raw materials, minimise waste, re-cycle when practical and economical, reduce and minimise the environmental impacts from its procedures and processes during manufacturing.
- Encourage management staff and workforce to be aware of environmental issues.
- Take account of environmental impact of new product development at the design stage, optimising efficient use of raw materials and non-renewable resources.
- Work with suppliers to optimise the life cycles of the products to minimise environmental impact of raw materials, product usage and eventual disposal.
- Promote and improve energy efficiency across all processes and operations, minimise waste, reduce, re-use and recycle wherever practical, the resources consumed by our business.

Honouring this policy will enable Anchor Systems (International) Ltd operations and its employees, customers and suppliers to make meaningful contributions to the quality of the environment.

Signed
Koshe Patel - Managing Director
